

Elmwood Park Zoo

Elf On The Shelf

I have a long neck that helps me in eating leaves from the trees. I am also the tallest mammal in the world.

Though we have a snout, we are not pigs. But we still enjoy a good dig

We are found on a farm, In our home we call a coop. Where we lay many eggs

I make lots of noise, mainly at night. The way I turn my head may give you a fright

We love to eat bananas and swing through the trees of the jungle

My fur is covered in spots, I'm good at climbing trees and I'm also part of the big cat family.
